

WE ARE SEEKING PARTICIPANTS FOR A VIRTUAL REALITY STUDY

We are looking for cancer survivors who have experienced chemotherapy in the past and are over 18 years of age to provide feedback on virtual reality and exercise options

You are invited to take part in a 1-hour workshop at either Adelaide city or Tonsley locations. Working in groups you will be asked to try virtual reality exercise, which involves a virtual reality headset with video content and sitting pedal exercise and share your thoughts about the experience.

We are interested in how these applications might be used during chemotherapy infusion.

You will receive a \$10 gift-voucher following the session

If you are interested in taking part in the study, please contact Katia Ferrar on katia.ferrar@flinders.edu.au or 7221 8471
